

Fibrelyte™ valve boxes are engineered for a greater strength-to-weight ratio than plastic products. Ideal for turf and walkway applications, Fibrelyte enclosures are capable of withstanding incidental traffic from vehicles, such as light trucks.\*

Fibrelyte boxes achieve greater load capacity than similar plastic sizes. Plus, the durable composite material of intertwined glass fibers maintains comparable weight as similar plastic sizes. This allows installers to utilize the same resources for handling and cutting Fibrelyte boxes as needed for plastic boxes.

\* All Fibrelyte models meet ANSI/SCTE 77 standards for Tier 8 load ratings.

**Common Sizes**

**Flush Covers**  
with slip resistant texture

**Lock Options**  
available for added security

**Rated for Tier 8**  
in all sizes for a variety of  
installation conditions

**Defined Mouseholes**  
ready-to-cut as needed in  
select models

**Superior Load Capacity  
than Plastic**  
in a light-weight,  
easy-to-handle material

**UV Inhibitors**  
help resist damage  
from exposure to  
sunlight

**Easy to Modify**  
in the field with a  
simple hole saw

Select Lids & Bodies Available in Green, Grey and Purple
