Decorator Combination GFCI Receptacles with SafeLock™ Protection

Straight Blade Devices
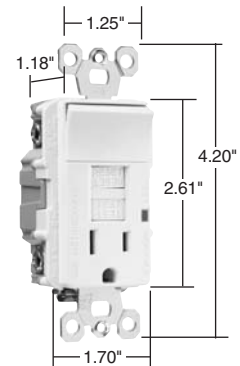

Pass & Seymour
**legrand®**

15A, 125VAC

Features

- Meets 2003 UL requirements.
- SafeLock™ Protection: if critical components are damaged and ground fault protection is lost, power to receptacle is disconnected.
- Up-down switching.
- 15 Amp single pole switch rated for 1/2 HP motor loads — perfect for bath or kitchen vent fans.
- Trip Indicator Light (red lamp).
- Prevents line-load reversal miswire: If miswired, GFCI cannot be RESET.
- Improved resistance to surge, corrosion and electrical power line noise.
- Nightlight has durable, cooler LED illumination.
- Energy-efficient LED has average 20-year life expectancy: eliminates bulb replacement.
- Side or internal screw-pressure-plate back wire with #14 – #10 AWG solid or stranded copper wire.
- Ground screw with a wire guide channel and back wire clamp.
- Line and load terminations supplied backed out and ready-to-wire.
- High-impact resistant thermoplastic construction (switch, face and back only).
- Extra-long strap.
- Two back wire holes per terminal.
- Welding of face to back body provides sealed tamperproof construction.
- Button colors match the device face.
- Class A rated GFCI.
- Supplied with matching TP26 nylon wall plate.
- Tri-drive screws.

Specifications

- Supply Voltage: 125VAC, 60 Hz
- Supply Voltage Range: 102-132 VAC
- Trip Threshold: 5± 1mA
- Trip Time: 0.025 sec., nominal per UL Standard
- 20 Amp feed-thru capacity
