| extra long description | PLATINUM 18112C UR GelFilled Connec |
| Features | The Telcom Splicing Connectors utilize an insulation displacement contact design for fast, simple, reliable terminations. No wire stripping is required and connectors will accept wire of different gauges. All connectors are Gel filled to provide moisture resistance and inhibit corrosion. For use with solid copper conductors only. Typical uses include Butt Splicing 2 or 3 wires of the same or different gauges. Perfect for pigtail and load coil splice applications. Use the UB connector for tapping onto an ex |
