| Features               | TKO Hole Cutters offer the most efficient and cleancutter replacement for traditional knockouts, by makingsmooth holes in a fraction of the time at a fraction of thecost. Specifically designed to cut sheet metal, TKO cutterswill even cut stainless steel with fine grained, carbidetips. The innovative design includes the exclusiveSmoothStart replaceable pilot drill, which guides thecutter to the surface, avoiding cutter damage andproviding smoother holes. An integral overdrill flangeprevents cutter penetrati |
| Long Description       | TKO Carbide Tipped Hole Cutter, 1-1/4 IN Hole                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Product Type           | 1-1 4" Carbide Hole Cutter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Special Features       | SmoothStart pilot drill prevents carbide damage by gradually guiding cutter to material; Precision-ground carbide teeth for fast cutting of clean, round holes; Designed specifically for sheet metal cutting, even stainless-steel; Over drill flange built-in to prevent penetration beyond the sheet metal                                                                                                                                                                                                                   |
