

## Eaton 3S UPS

The sleek and slim Eaton 3S delivers high efficiency and energy-saving battery backup and surge protection for your premium home and office equipment.

### Eaton 3S UPS features and benefits:

**Ease-of-use:** The clean and simple design of the 3S allows you to start backing up your equipment in a few moments. The 3S also integrates automatically with standard power policies in Windows, Mac and Linux through the plug-and-play USB management port (3S550 and 3S750 only).

**EcoControl:** The 3S manages your energy efficiency for you with EcoControl Master/Control outlets (model 3S750 only). When the item using the Master outlet (e.g., your computer) is idle or shut down, then items using the Control outlets (e.g., printer, scanner, fax) are automatically powered down — rewarding you with up to 30 percent in energy savings over a typical battery backup.

**Modern design:** The sleek design of the 3S allows you to display it alongside your high-tech equipment for a sophisticated look. This unit can be wall-mounted, desk-mounted or placed on the floor for additional space savings.

**Premium protection:** The high-efficiency design of the Eaton 3S provides premium power protection for up to 10 devices.

### Data protection

Eaton's free UPS Companion software provides easy configuration and UPS status notifications, while automating graceful shutdown for your computer during a prolonged power outage, preventing data loss.

### Services and support

Eaton provides product support 24 hours a day, 7 days a week. From battery replacement to full service plans, Eaton is here to support you through the life of your product.

### Three-year warranty

The 3S warranty covers both the UPS and the battery for three years.

### Battery runtime

The 3S provides up to 30 minutes of high efficiency and energy-saving battery backup and surge protection for your home and office equipment. For a detailed, interactive battery runtime chart, please visit:
