PLASTIC-COATED, SHATTERPROOF LAMPS & LIGHTING PRODUCTS

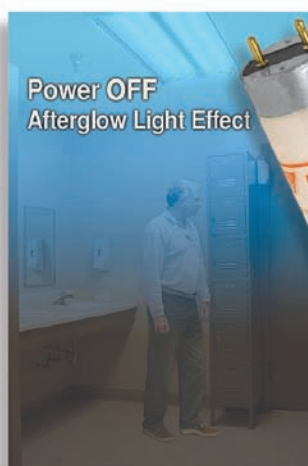

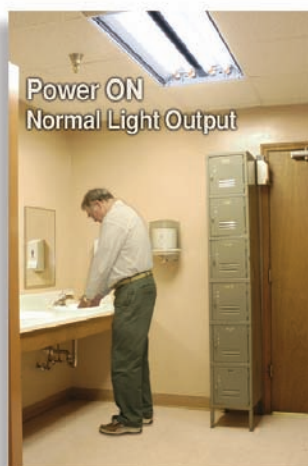

Photo Luminescent Fluorescent Lamps

Product Bulletin

Safety-Coated Shat-R-Shield Glow® Lamps Won't Leave You in the Dark

DESCRIPTION

Imagine a fluorescent lamp that provides light even after the power source has been interrupted. That's exactly what a **Shat-R-Shield GLOW** lamp does. Featuring photo luminescent technology, a Shat-R-Shield Glow lamp provides that extra measure of safety if rapid evacuation from a darkened area becomes necessary. *Shat-R-Shield GLOW is designed to augment emergency back-up lighting systems and is not intended as a replacement.* This unique product also features a clear and tough, plastic coating to safely contain glass and other lamp elements if the lamp is accidentally broken.

APPLICATIONS

- stairwells
- interior hallways
- office / work areas
- restrooms
- underground parking facilities
- subway tunnels
- mines

where **performance** and **safety** are important issues.

GUARANTEE

The safety coating on a Shat-R-Shield Glow Lamp is guaranteed for the rated-life of the lamp.

Shat-R-Shield offers a complete line of safety-coated, shatterproof lamps including fluorescents, incandescents & HIDs

FEATURES Safety-Coated, Photo Luminescent Fluorescent Lamps

- The Shat-R-Shield GLOW lamp is offered in a popular 4 ft. T8 fluorescent size.
- It only takes 15-minutes to fully-charge a Shat-R-Shield GLOW lamp. Optimum *afterglow* will last for 90-minutes and continue to provide lower-level visibility for up to 6-hours.
- These unique lamps are also designed to be portable sources of light. They can be removed from their fixtures and carried along darkened corridors.
- Even if the lamp is broken, it will continue to glow and provide light while the clear and tough protective coating provides a flexible safety envelope for glass and vapors.
- Shat-R-Shield coatings are certified by **UL®** and **NSF®**, are **USDA** approved and meet **FDA**, **OSHA**, **CFIA** (Canadian Food Inspection Agency) and Mexico Department of Agriculture, Livestock and Rural Development regulations.
- If a Shat-R-Shield GLOW lamp is dropped or broken, virtually all glass, phosphors, and mercury are safely contained within the skin-tight plastic coating.
