# **WELDING CABLE**

600 Volts. Rated for -55°C to 105°C. Sizes 6 AWG - 500 MCM
Good Flexibility. Oil Resistant.
Resists Compression, Cuts and Abrasion.
Black EPDM Jacket, RoHS Compliant.

### **APPLICATIONS**

Southwire Welding Cables are used for Secondary voltage resistance welding leads. Power supply applications not exceeding 600 volts AC.

### **SPECIFICATIONS**

- ASTM B-3
- ASTM B-172
- RoHS Compliant
- ICEA S-75-381

#### CONSTRUCTION

Southwire Welding Cables are manufactured using annealed rope-stranded bare copper conductor as per ICEA S-75-381. A paper tape separates the conductor from the insulation to facilitate stripping. A 105° EPDM black jacket is extruded onto the cable.

### **ALTERNATE CONSTRUCTION**

Also available with a red jacket. May be subject to minimum order.

green (Spec) RoHS Compliant
