# Halo Home

## Smart solutions for a connected home

Eaton's **Halo Home** offers Bluetooth enabled lighting and controls products that can be easily configured by using a smartphone or tablet. The system allows the user to securely connect, automate and control a variety of lighting and controls products throughout the interior and exterior of the home.

- Connects the power of HALO
- Simple configuration by using a smartphone or tablet
- System is fully functional with or without the internet
- Flexible features that can provide true energy savings

## RL wireless

### 5"/6" LED retrofit downlight

#### **Automate and control lighting remotely**

Set automations or scheduled actions through the hub app. Geofencing also available through the app.

#### **Color adjustment**

Adjust color temperature (CCT) using the hub app. 2700K (warm) - 5000K (cool)

#### **Create scenes by grouping**

Choose multiple Halo RL wireless downlights and control them all together using the hub app.

#### **ON/OFF functions**

Perform ON/OFF functions from anywhere.

#### **Dimming function**

The downlight will dim to 5% using the hub app. Do not connect the downlight to a wall dimmer.

#### **Uses ZigBee**

Smart device and hub required. Sold separately. Compatible with Wink and SAMSUNG SmartThings.

## RL

### 4" and 5"/6" LED retrofit downlight

The Halo RL LED is a complete 4" and 5"/6" LED baffle-trim module for recessed downlights. The RL is designed for use in new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The integral LED driver offers 120 volt dimming capability. RL56 is offered in 600, 900, and 1200 lumen series. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements.

RL models in 90 CRI are offered in 2700K, 3000K, 3500K, 4000K, and 5000K. Optional accessories include designer trims in white (paintable), satin nickel, and tuscan bronze.

## SMD

### Surface mount LED downlighting

The Halo Surface Mount LED Downlight (SMD) is an ultra-low profile surface mounting luminaire with a modern look and high performance. SMD4 (4") and SMD6 (6") are designed for installation in recessed housings and many 3-1/2" and 4" square, octagon, or round junction boxes. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. The SMD series also offers a direct mount (DM) version which can be installed directly into the ceiling with no additional junction box or housing required. Utilizing the integral Halo enclosure, the DM version of the SMD provides a quick installation and flush finish with the ceiling.

### SMD

housing and junction box compatible

**SMD4R69xxWH** 4" Round surface mount LED downlight, 90 CRI

**SMD4S69xxWH** 4" Square surface mount LED downlight, 90 CRI

**SMD6R69xxWH** 6" Round surface mount LED downlight, 90 CRI

**SMD6S69xxWH** 6" Square surface mount LED downlight, 90 CRI

**xx** - 27=2700K, 30=3000K, 35=3500K, 40=4000K, 50=5000K

### SMD-DM

direct mount into ceiling; no housing or jbox needed

**SMD4R69xxWHDM** 4" Round surface mount LED downlight, 90 CRI, direct mount

**SMD4S69xxWHDM** 4" Square surface mount LED downlight, 90 CRI, direct mount

**SMD6R69xxWHDM** 6" Round surface mount LED downlight, 90 CRI, direct mount

**SMD6S69xxWHDM** 6" Square surface mount LED downlight, 90 CRI, direct mount

**xx** - 27=2700K, 30=3000K, 35=3500K, 40=4000K, 50=5000K

## SMD

- Fits most j-boxes and 5-inch or 6-inch recessed housings
- Ceiling or wall mounting in compatible junction boxes
- Replaces bulbs, flush mounts, and recessed trims

### mounting methods

Junction box bracket

Torsion springs for recessed housings

Friction clips for recessed housings

### SMD Designer Trims

- Exclusively for use with Halo SMD4 and SMD6 LED modules
- Round or square trims
- Finishes: white (paintable), satin nickel, tuscan bronze

## SMD-DM

- Install into drywall without a housing or junction box
- Integral junction box
  - (2) conduit knock-outs
  - (2) Slide-N-Side™ wire traps

## easy installation

1. Cut a hole in drywall with the provided template.

2. Wire to the integrated fixture junction box.

3. Fold both of the spring clips upward.

4. Push the fixture up into place.

**no housing or jbox required**

## SLD

### 4" and 6" surface LED downlight

Halo Surface LED Downlight (SLD) incorporates WaveStream™ technology to create an ultra-low profile 4" and 6" surface mounting luminaire with the performance and look of a traditional downlight. SLD is designed for installation in many square, octagon, or round junction boxes. Supply wire adapter with LED quick wiring connector included. Suitable for residential or commercial installations. Ideal for storage areas, attics and basements; and may be used in 4", 5" and 6" recessed downlights. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. The included retrofit kit's dedicated LED wiring connector meets high efficacy code requirements.

## RA

### 4" and 5"/6" LED retrofit adjustable gimbal

The Halo RA LED is a complete 4" and 5"/6" adjustable gimbal LED module; suitable for new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The RA adjustable gimbal offers 35-degree tilt and up to 360-degree rotation. The integral LED driver offers 120 volt dimming capability. The RA4 and RA56 adjustable gimbals are offered with 90 CRI in 2700K and 3000K; and with beam spread options in Very Wide Flood (VWFL) and Narrow Flood (NFL) models.

## LT

### 4" and 5" / 6" LED retrofit baffle trim kit

The Halo LT combines the energy savings, long life and sustainability of LED in an easy to install retrofit baffle trim kit. The LT is designed for use in new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The diffuse lens provides shielding to the source and wet location listing; suitable for use in showers or in outdoor covered ceiling applications. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. Integral driver provides 120 volt phase cut dimming, an inline connector provides power using a medium base socket adapter provided or connect directly to the mating connector in the LED housings. LT models in 90 CRI are offered in 2700K, 3000K, 3500K, 4000K, and 5000K. Ships with a gasket and makes any housing airtight for added energy savings and code compliance.

## ML4

### 4-inch LED downlighting system

The ML4 system is comprised of a housing, LED module, and round or square 2-inch aperture pinhole trims. This compact assembly installs from below the ceiling in standard 4-inch line voltage housings suitable for 2x6 residential framing or shallow plenum commercial construction (H995 series).

For even tighter spaces, ultra-shallow new construction and remodel (install from below) housings are available and are suitable for 2x4 framing (H245 series). For ceiling types that make recessed lighting difficult, like concrete pour, round and surface cylinders support direct attachment to finished ceiling surfaces.

Although diminutive in size the 900 lumen series ML4 delivers powerful beams of light providing the optical control and color quality typically associated with low voltage tungsten-halogen MR16 lamps. Delivered center beam candlepower (CBCP) of ML4 LED exceeds 50W low voltage MR16 lamps with significantly higher candela per watt (Cd/W).

**TIR50NFL25**

**LH501MB**  
Media holder for  
50mm lens

*media holder with lens  
installed on optic*

The narrow flood optic, the most efficient and powerful beam, is pre-installed in the ML4 module and is suitable for a wide range of applications. Alternate beams are possible – flood and wide flood optics are available as accessories and easily installed in the field. An optional media holder attaches directly to the optic and accepts industry standard 2" diameter (50mm) lens media providing additional creative control.

TL4 series trims are offered in four luxurious electro-plated finishes; brushed nickel, oil rubbed bronze, brushed copper and German bronze. Use to complement your thoughtfully selected interior finishes.

The TL4 trims are available in three trim types; open, lens, and lens wall wash.

The trims are attached by four powerful rare earth Neodymium magnets; they float on a bubble of magnetic flux keeping the trims held securely in place.

## ML56

### 5-inch / 6-inch LED downlighting system

The Halo ML56 LED downlight collection is comprised of LED modules with 5" and 6" trims. ML56 LED modules are offered in three lumen packages across the 600, 900, and 1200 series. For general lighting in commercial and residential applications for either new construction or retrofit existing 5" and 6" compatible housings. Halo LED ML56 features excellent color (80 CRI or 90 CRI) and offers a wide selection of color temperatures (2700K, 3000K, 3500K, and 4000K). An optional dim-to-warm (D2W™) feature creates an additional lighting solution as it provides a smooth warm transition from 3000K to 1850K when dimmed.

\*HE26LED Edison Screw Base Adapter (included for retrofit of non-LED housings).

†Optional accessory for the ML56-1200 series.

## H4 LED downlight system

Halo H4 LED downlight collection is a three-part system that consists of a 4" downlight housing, light engine module, and trim to be installed according to the pace of the project. The H4 collection is offered in 90 CRI, R9 > 50, with four LED light engines, accepts 16 different trims including reflector, baffle and lensed. Adjustable gimbal light engines feature aiming up to 35° tilt, and interchangeable reflector in 25°, 35°, and 55° beam. Housings are offered in Insulated Ceiling (IC) and Non-Insulated Ceiling (Non-IC), both in Air-Tite™ models that include dimmable LED drivers. H4 LED is ENERGY STAR® certified and can be used for California Title 24, and IECC High Efficacy compliance with designated LED modules and LED trims. Halo 4" LED downlights save energy, without sacrificing performance.

polished chrome trim ring

## HL6

### ALLSLOPE LED recessed lighting

Featuring unique interchangeable beam-forming optics, full range dimming, multiple color temperatures and trim options, the Halo HL6 AllSlope LED 6" downlight system is specifically designed for slope ceilings with pitch aiming from 2/12 (10 degrees) to 12/12 (45 degrees). The innovative design allows the LED light engine full adjustment capability so it can be aimed straight down in accordance with the ceiling pitch, resulting in outstanding performance and appearance. The three piece system consists of a 6-inch aperture housing, available in 1200 lumen series or 1800 lumen series; LED light engines are offered with 90 CRI (R9>50) in 2700K, 3000K, 3500K, 4000K; and available with three interchangeable optics. The trim selection is from a full line of slope ceiling trims including reflectors, baffles, and lens choices.

## E26

### expanded collection

Halo has expanded its Fit-All concept with a new collection of 4-Inch, 5-inch and 6-inch housings and trims designed for the new generation of E26 screwbase halogen, LED, and CFL lamps; with a focus on value, streamlined design, and exclusive installation-friendly features.

With continued nationwide adoption of new E26 screw base lamps in LED, CFL, and halogen technologies; Halo has expanded the line with compatible new trim and housing designs. The expanded E26 series is ideal for both residential and light commercial downlighting applications with its versatile installation, attractive design, universally accepted E26 screw base, and capability to employ new energy efficient lamps.

New trims feature a consistent design style in an all-inclusive offering of full-cone and half-cone reflectors and baffles; gimbal and eyeball directionals; open and lensed wet location with “dead-front” options.

Housings feature efficient installation capability in a compact-sized frame with an offering of socket-bracket and no-socket-bracket models. New installation features include a repositionable junction box with hinged door for flexibility in tight spaces; All Nail! bar hangers with new Q-Channel interlocking bars that pass-thru for increased stability and tool-less shortening. Remodels feature an exciting new retention method of speed clamps with locking tabs that adjust for ceilings from 3/8” – 2”.

For over 60 years, Halo has been the industry leader in recessed and track lighting providing innovative and contractor-friendly lighting products. State-of-the-art engineering, on-going research and development, meticulous product standards, and a tradition of unparalleled service makes Halo the brand builders know and trust.

*Small cardboard squares were set on a conveyor system and when an order came in for a new Halo recessed lighting product four or five people would pitch in and assemble the products. Total employee count at Halo's beginning was three people in the office and seven in the plant located in a 3,000 square ft. building in Chicago.*

## Smart solutions for a connected home

Eaton's **Halo Home** offers Bluetooth enabled lighting and controls products that can be easily configured by using a smartphone or tablet. The system allows the user to securely connect, automate and control a variety of lighting and controls products throughout the interior and exterior of the home.

- Connects the power of HALO
- Simple configuration by using a smartphone or tablet
- System is fully functional with or without the internet
- Flexible features that can provide true energy savings

## RL wireless

### 5"/6" LED retrofit downlight

#### **Automate and control lighting remotely**

Set automations or scheduled actions through the hub app. Geofencing also available through the app.

#### **Color adjustment**

Adjust color temperature (CCT) using the hub app. 2700K (warm) - 5000K (cool)

#### **Create scenes by grouping**

Choose multiple Halo RL wireless downlights and control them all together using the hub app.

#### **ON/OFF functions**

Perform ON/OFF functions from anywhere.

#### **Dimming function**

The downlight will dim to 5% using the hub app. Do not connect the downlight to a wall dimmer.

#### **Uses ZigBee**

Smart device and hub required. Sold separately. Compatible with Wink and SAMSUNG SmartThings.

## RL

### 4" and 5"/6" LED retrofit downlight

The Halo RL LED is a complete 4" and 5"/6" LED baffle-trim module for recessed downlights. The RL is designed for use in new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The integral LED driver offers 120 volt dimming capability. RL56 is offered in 600, 900, and 1200 lumen series. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements.

RL models in 90 CRI are offered in 2700K, 3000K, 3500K, 4000K, and 5000K. Optional accessories include designer trims in white (paintable), satin nickel, and tuscan bronze.

## SMD

### Surface mount LED downlighting

The Halo Surface Mount LED Downlight (SMD) is an ultra-low profile surface mounting luminaire with a modern look and high performance. SMD4 (4") and SMD6 (6") are designed for installation in recessed housings and many 3-1/2" and 4" square, octagon, or round junction boxes. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. The SMD series also offers a direct mount (DM) version which can be installed directly into the ceiling with no additional junction box or housing required. Utilizing the integral Halo enclosure, the DM version of the SMD provides a quick installation and flush finish with the ceiling.

### SMD

housing and junction box compatible

**SMD4R69xxWH** 4" Round surface mount LED downlight, 90 CRI

**SMD4S69xxWH** 4" Square surface mount LED downlight, 90 CRI

**SMD6R69xxWH** 6" Round surface mount LED downlight, 90 CRI

**SMD6S69xxWH** 6" Square surface mount LED downlight, 90 CRI

**xx** - 27=2700K, 30=3000K, 35=3500K, 40=4000K, 50=5000K

### SMD-DM

direct mount into ceiling; no housing or jbox needed

**SMD4R69xxWHDM** 4" Round surface mount LED downlight, 90 CRI, direct mount

**SMD4S69xxWHDM** 4" Square surface mount LED downlight, 90 CRI, direct mount

**SMD6R69xxWHDM** 6" Round surface mount LED downlight, 90 CRI, direct mount

**SMD6S69xxWHDM** 6" Square surface mount LED downlight, 90 CRI, direct mount

**xx** - 27=2700K, 30=3000K, 35=3500K, 40=4000K, 50=5000K

## SMD

- Fits most j-boxes and 5-inch or 6-inch recessed housings
- Ceiling or wall mounting in compatible junction boxes
- Replaces bulbs, flush mounts, and recessed trims

### mounting methods

Junction box bracket

Torsion springs for recessed housings

Friction clips for recessed housings

### SMD Designer Trims

- Exclusively for use with Halo SMD4 and SMD6 LED modules
- Round or square trims
- Finishes: white (paintable), satin nickel, tuscan bronze

## SMD-DM

- Install into drywall without a housing or junction box
- Integral junction box
  - (2) conduit knock-outs
  - (2) Slide-N-Side™ wire traps

### easy installation

1. Cut a hole in drywall with the provided template.

2. Wire to the integrated fixture junction box.

3. Fold both of the spring clips upward.

4. Push the fixture up into place.

**no housing or jbox required**

## SLD

### 4" and 6" surface LED downlight

Halo Surface LED Downlight (SLD) incorporates WaveStream™ technology to create an ultra-low profile 4" and 6" surface mounting luminaire with the performance and look of a traditional downlight. SLD is designed for installation in many square, octagon, or round junction boxes. Supply wire adapter with LED quick wiring connector included. Suitable for residential or commercial installations. Ideal for storage areas, attics and basements; and may be used in 4", 5" and 6" recessed downlights. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. The included retrofit kit's dedicated LED wiring connector meets high efficacy code requirements.

## RA

### 4" and 5"/6" LED retrofit adjustable gimbal

The Halo RA LED is a complete 4" and 5"/6" adjustable gimbal LED module; suitable for new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The RA adjustable gimbal offers 35-degree tilt and up to 360-degree rotation. The integral LED driver offers 120 volt dimming capability. The RA4 and RA56 adjustable gimbals are offered with 90 CRI in 2700K and 3000K; and with beam spread options in Very Wide Flood (VWFL) and Narrow Flood (NFL) models.

## LT

### 4" and 5" / 6" LED retrofit baffle trim kit

The Halo LT combines the energy savings, long life and sustainability of LED in an easy to install retrofit baffle trim kit. The LT is designed for use in new construction, remodel, and retrofit installation in Halo and other compatible 4", 5" and 6" recessed downlight housings. The diffuse lens provides shielding to the source and wet location listing; suitable for use in showers or in outdoor covered ceiling applications. Suitable for use in clothes closets when installed with NEC® 410.16 spacing requirements. Integral driver provides 120 volt phase cut dimming, an inline connector provides power using a medium base socket adapter provided or connect directly to the mating connector in the LED housings. LT models in 90 CRI are offered in 2700K, 3000K, 3500K, 4000K, and 5000K. Ships with a gasket and makes any housing airtight for added energy savings and code compliance.

## ML4

### 4-inch LED downlighting system

The ML4 system is comprised of a housing, LED module, and round or square 2-inch aperture pinhole trims. This compact assembly installs from below the ceiling in standard 4-inch line voltage housings suitable for 2x6 residential framing or shallow plenum commercial construction (H995 series).

For even tighter spaces, ultra-shallow new construction and remodel (install from below) housings are available and are suitable for 2x4 framing (H245 series). For ceiling types that make recessed lighting difficult, like concrete pour, round and surface cylinders support direct attachment to finished ceiling surfaces.

Although diminutive in size the 900 lumen series ML4 delivers powerful beams of light providing the optical control and color quality typically associated with low voltage tungsten-halogen MR16 lamps. Delivered center beam candlepower (CBCP) of ML4 LED exceeds 50W low voltage MR16 lamps with significantly higher candela per watt (Cd/W).

**LH501MB**  
Media holder for  
50mm lens

*media holder with lens  
installed on optic*

The narrow flood optic, the most efficient and powerful beam, is pre-installed in the ML4 module and is suitable for a wide range of applications. Alternate beams are possible – flood and wide flood optics are available as accessories and easily installed in the field. An optional media holder attaches directly to the optic and accepts industry standard 2" diameter (50mm) lens media providing additional creative control.

TL4 series trims are offered in four luxurious electro-plated finishes; brushed nickel, oil rubbed bronze, brushed copper and German bronze. Use to complement your thoughtfully selected interior finishes.

The TL4 trims are available in three trim types; open, lens, and lens wall wash.

The trims are attached by four powerful rare earth Neodymium magnets; they float on a bubble of magnetic flux keeping the trims held securely in place.

## ML56

### 5-inch / 6-inch LED downlighting system

The Halo ML56 LED downlight collection is comprised of LED modules with 5" and 6" trims. ML56 LED modules are offered in three lumen packages across the 600, 900, and 1200 series. For general lighting in commercial and residential applications for either new construction or retrofit existing 5" and 6" compatible housings. Halo LED ML56 features excellent color (80 CRI or 90 CRI) and offers a wide selection of color temperatures (2700K, 3000K, 3500K, and 4000K). An optional dim-to-warm (D2W™) feature creates an additional lighting solution as it provides a smooth warm transition from 3000K to 1850K when dimmed.

\*HE26LED Edison Screw Base Adapter (included for retrofit of non-LED housings).

†Optional accessory for the ML56-1200 series.

## H4 LED downlight system

Halo H4 LED downlight collection is a three-part system that consists of a 4" downlight housing, light engine module, and trim to be installed according to the pace of the project. The H4 collection is offered in 90 CRI, R9 > 50, with four LED light engines, accepts 16 different trims including reflector, baffle and lensed. Adjustable gimbal light engines feature aiming up to 35° tilt, and interchangeable reflector in 25°, 35°, and 55° beam. Housings are offered in Insulated Ceiling (IC) and Non-Insulated Ceiling (Non-IC), both in Air-Tite™ models that include dimmable LED drivers. H4 LED is ENERGY STAR® certified and can be used for California Title 24, and IECC High Efficacy compliance with designated LED modules and LED trims. Halo 4" LED downlights save energy, without sacrificing performance.

# HL6

## ALLSLOPE LED recessed lighting

Featuring unique interchangeable beam-forming optics, full range dimming, multiple color temperatures and trim options, the Halo HL6 AllSlope LED 6" downlight system is specifically designed for slope ceilings with pitch aiming from 2/12 (10 degrees) to 12/12 (45 degrees). The innovative design allows the LED light engine full adjustment capability so it can be aimed straight down in accordance with the ceiling pitch, resulting in outstanding performance and appearance. The three piece system consists of a 6-inch aperture housing, available in 1200 lumen series or 1800 lumen series; LED light engines are offered with 90 CRI (R9>50) in 2700K, 3000K, 3500K, 4000K; and available with three interchangeable optics. The trim selection is from a full line of slope ceiling trims including reflectors, baffles, and lens choices.

## E26 expanded collection

Halo has expanded its Fit-All concept with a new collection of 4-Inch, 5-inch and 6-inch housings and trims designed for the new generation of E26 screwbase halogen, LED, and CFL lamps; with a focus on value, streamlined design, and exclusive installation-friendly features.

With continued nationwide adoption of new E26 screw base lamps in LED, CFL, and halogen technologies; Halo has expanded the line with compatible new trim and housing designs. The expanded E26 series is ideal for both residential and light commercial downlighting applications with its versatile installation, attractive design, universally accepted E26 screw base, and capability to employ new energy efficient lamps.

New trims feature a consistent design style in an all-inclusive offering of full-cone and half-cone reflectors and baffles; gimbal and eyeball directionals; open and lensed wet location with “dead-front” options.

Housings feature efficient installation capability in a compact-sized frame with an offering of socket-bracket and no-socket-bracket models. New installation features include a repositionable junction box with hinged door for flexibility in tight spaces; All Nail! bar hangers with new Q-Channel interlocking bars that pass-thru for increased stability and tool-less shortening. Remodels feature an exciting new retention method of speed clamps with locking tabs that adjust for ceilings from 3/8” – 2”.

**6101WB**

white baffle and (2) white trims  
(wide and narrow included)

**6101BB**

black baffle and (2) white trims  
(wide and narrow included)

**6102**

tapered metal baffle

**6102WB**

white baffle and trim

**6102BB**

black baffle and white trim

**6103**

straight metal baffle

**6103WB**

white baffle and trim

**6103BB**

black baffle and trim

**6108**

coilex® straight baffle

**6108WB**

white plastic straight coilex baffle  
and trim

**6108BB**

black plastic straight coilex baffle  
and white trim

**6108BKBB**

black plastic straight coilex baffle  
and trim

**6109**

coilex® tapered baffle

**6109WB**

white plastic tapered coilex baffle and trim

**6109BB**

black plastic tapered coilex baffle and white trim

**6109BKBB**

black plastic tapered coilex baffle and trim

**6110**

perftex™ baffle

**6110WB**

white perftex baffle and trim

**6110BB**

black perftex baffle and white trim

**6110BKBB**

black perftex baffle and trim

**6125**

full cone with baffle

**6125WB**

white baffle and trim

**6125BB**

black baffle and white trim

**6125BKBBB**

black baffle and trim

**6126**

shallow full cone with baffle

**6126WB**

white baffle and trim

**6126BB**

black baffle and white trim

## 6" adjustables

**6130**

eyeball, 35° tilt PAR30

**6130WH**

white eyeball and trim

**6170**

gimbal, 25° tilt PAR38

**6170WH**

white gimbal and trim

**6170SN**

satin nickel gimbal and trim

**6170BK**

black gimbal and trim

**6170TBZ**

tuscan bronze gimbal and trim

**6215**

double gimbal 35°-50° tilt, PAR38

**6215WH**  
white gimbal and trim

**6215SN**  
satin nickel gimbal and trim

**6215BK**  
black gimbal and trim

**6215TBZ**  
tuscan bronze gimbal and trim

**6222**

regressed adjustable, 45° tilt

**6222WB**  
white baffle and white trim

**6222BB**  
black baffle and white trim

**6222SC**  
specular clear reflector and white trim

**6222H**  
haze reflector and white trim

## 6" showerlights

**6145\***

open wet location shallow reflector

## 6255

soft square, frost glass lens

### 6255WH

frost glass lens, white  
plastic trim

### 6255SN

frost glass lens, satin nickel  
plastic trim

### 6255TBZ

frost glass lens, tuscan bronze  
plastic trim

For over 60 years, Halo has been the industry leader in recessed and track lighting providing innovative and contractor-friendly lighting products. State-of-the-art engineering, on-going research and development, meticulous product standards, and a tradition of unparalleled service makes Halo the brand builders know and trust.

*Small cardboard squares were set on a conveyor system and when an order came in for a new Halo recessed lighting product four or five people would pitch in and assemble the products. Total employee count at Halo's beginning was three people in the office and seven in the plant located in a 3,000 square ft. building in Chicago.*

**Saving you time, money, and energy.**
