| Catalog Number: | Туре:        |

1877

CR20

### Description

2-Pole, 3-Wire Grounding 15A 125V/AC; 15A 250V/AC 20A 125V/AC; 20A 250V/AC NEMA 5-15, 5-20, 6-15, 6-20

### **Design features**

- Galvanized steel, wrap-around yoke mounting strap for superior assembly security; extra length/width helps reach large panel cutouts for Code Compliance
- Automatic grounding system eliminates need for bonding jumper in grounded metal enclosure, provides redundant measure of ground continuity where jumper used
- Screw-Catch feature on duplex devices speeds mounting of wallplates
- Tamper Resistant receptacles provide compliance with 2014 NEC<sup>®</sup> Article 406.12 that states that all 15A & 20A, 125V receptacles installed in dwelling units must be tamper resistant

# Applications

Commercial grade duplex receptacles are challenged on a daily basis to provide a consistent, reliable means of connectivity in a wide variety of environments. The applications vary greatly by environment, and provide challenges from impact and chemical resistance to environmental extremes such as heat and moisture. The breadth of the Arrow Hart Straight Blade Receptacle line provides solutions for all environments and applications.

# Commercial grade straight blade duplex receptacles

| Project Name:   | Prepared By: |
|-----------------|--------------|
| Project Number: | Date:        |
| Catalog Number: | Туре:        |

1877

CR20

### Description

2-Pole, 3-Wire Grounding 15A 125V/AC; 15A 250V/AC 20A 125V/AC; 20A 250V/AC NEMA 5-15, 5-20, 6-15, 6-20

### **Design features**

- Galvanized steel, wrap-around yoke mounting strap for superior assembly security; extra length/width helps reach large panel cutouts for Code Compliance
- Automatic grounding system eliminates need for bonding jumper in grounded metal enclosure, provides redundant measure of ground continuity where jumper used
- Screw-Catch feature on duplex devices speeds mounting of wallplates
- Tamper Resistant receptacles provide compliance with 2014 NEC<sup>®</sup> Article 406.12 that states that all 15A & 20A, 125V receptacles installed in dwelling units must be tamper resistant

# Applications

Commercial grade duplex receptacles are challenged on a daily basis to provide a consistent, reliable means of connectivity in a wide variety of environments. The applications vary greatly by environment, and provide challenges from impact and chemical resistance to environmental extremes such as heat and moisture. The breadth of the Arrow Hart Straight Blade Receptacle line provides solutions for all environments and applications.
