Long Description	Eaton's residential CH circuit breakers provide premium overload protection. The Type CH circuit breakers trip to the OFF position, eliminating nuisance callbacks. The CHF family also includes a trip flag to differentiate between a trip and the breaker being turned off. The thermal-magnetic trip curve avoids nuisance tripping on mild overloads while reacting almost instantaneously to severe short-circuit conditions. Multiple breakers have an internal common trip connection to operate all poles simultaneous Eaton CH arc fault / ground fault circuit breaker, All-In-One, 20A, 10 kAIC, Single-pole, 120V, plug-on neutral, 3/4" AFCI/GFCI
