| extra long description | ETN CHP42L225X6 CH PON LOADCENTER,                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Features               | Eaton's CH 3/4-inch loadcenters enclose CH circuit breakers for power distribution and circuit protection in residential and light commercial applications. Also called a breaker box, electrical box or even a fuse box, the main function is to take electricity supplied by the utility and distribute it throughout the home to feed lights and receptacles. Covers are typically packaged separately and available as surface or flush mount. |
| Long Description       | Eaton CH main lug loadcenters, PON, Main Lug Only, 225 A, X6, Copper, NEMA 1, Metallic, 10 kAIC, 84, Single-pole, 42, Two hots, a neutral and a ground, Single-phase, 120/240 V, #4 AWG-300 kcmil                                                                                                                                                                                                                                                  |
| Product Type           | CH Pon Loadcenter, 225A, Mlo, 42 Spaces                                                                                                                                                                                                                                                                                                                                                                                                            |
