

DLE V2

2" Recessed LED Downlight

The DLE Edge Lit LED Downlight Series offers an attractive visual aesthetic with a low profile in both round and square apertures. The edge-lit technology uses a reflective light guide panel that disperses light through a diffused lens, making it a practical and economical solution with high performance. The ultra-thin fixture depth and off-board driver allow for more flexible installation and increased lifetime with improved thermal management. The DLE fixture uses a plenum-rated cable connector to link the downlight module to the remote driver box and then pops into place with its adjustable, spring-loaded retention tabs for a secure fit, eliminating the need for a J-box or recessed housing. Adding light in tight spaces such as hallways, bathrooms, basements, entryways, porches, stairways, work areas, utility closets and corridors just got easier.

Edge Lit Technology

Allows for thin fixture depth

Frosted Diffused Lens

Uniform light distribution for maximum lumen output

Spring loaded retention arms

For easy installation, no housing needed

Cast Aluminum housing

Keeps heat away from electrical components

Off-Board Driver

Includes junction box with three knockout ports for connection

Product Measurements						
	DLE3-RD	DLE4-RD	DLE4-SQ	DLE6-RD	DLE6-SQ	DLE8-RD
Length:	3.69in (94 mm)	5.0in (127 mm)	4.70in (120 mm)	6.75in (171 mm)	6.90in (175 mm)	9.9in (251 mm)
Height:	0.44in (11 mm)	0.44in (11 mm)	0.80in (18 mm)	0.44in (11 mm)	0.82in (21 mm)	1.9in (48 mm)

DLE V2

Ordering Information

Construction

- Cast aluminum housing routes heat away from electrical components
- Edge-Lit technology allows for extremely thin fixture depth
- Adjustable, spring loaded retention tabs ensure secure fixture retention
- Certified for direct contact with insulation
- Includes gasket to meet AirTight requirements
- Square fixture has round back for easier cut in with standard hole cutters.

Optical System

- Precision engineered optical stack creates uniform light distribution that maximizes lumen output
- Frosted diffused acrylic lens also available CCT offered at 2700K, 3000K, 4000K, 5000K
- Utilizes high performing LEDs with a greater than 90 CRI and an R9 greater than 50

Electrical

- Off-board driver minimizes installation height and maximizes fixture life through improved heat management
- Dimmable to less than 5% with compatible TRIAC dimmers
- Operating temperature of 0° to 120°F (-18°C to 49°C)
- Input voltage of 120VAC
- TM-21 Reported L70(9K) hours >54,000

Finish

- Matte white powder coat finish
- Color trims available in Black, Nickel and Aged Copper
- Available in round or square configurations (DLE4&6 only)

Mounting and Installation

- Spring loaded retention arms allow for easy installation with no need for a recessed housing
- Off-board driver/junction box includes two 1/2" KOs and three-port poke-in connectors
- Included paper cutting template
- Metal rough in template available
- Extension power cables (2', 10', 20') available
- Suitable for damp locations

Warranty

- 5-year limited system warranty standard
- Warranty does not cover product failure due to an overvoltage event (power surge)
- For installations where power surge may be possible, NICOR recommends installing additional surge protection at the electrical distribution panel

Remote Driver Products Installation

NICOR strives to deliver ease of installation and high-performance lighting solutions while providing a wide variety of form factors and sizes that fit any application. The newest expansion of NICOR's LED downlight family continues to deliver on these standards by providing new remote driver, and surface mount options that not only offer a variety of choices but also meet Energy Star standards. The range of available sizes and form factors add flexibility in application installation while being supported by an array of accessories and color options on select models.
