

# Phenolic Insulating Couplings

For Threaded Rigid Conduit & IMC

## Type ICC

### Features:

- Will not melt, soften or burn
- Temperature rating 150°C
- Dielectric strength of 220 V/mil.
- Tapered threads (NPT)

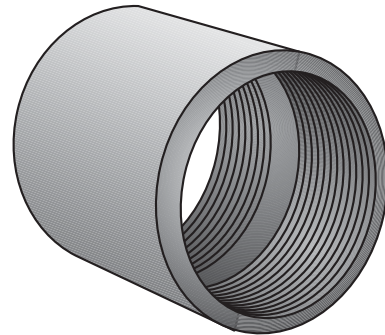

An insulating coupling having a substantial center shoulder, which prevents butting of the conduits, to assure a definite break in the metallic path.

The Type ICC is recommended for use where high strength or resistance to moisture or acid conditions is required.

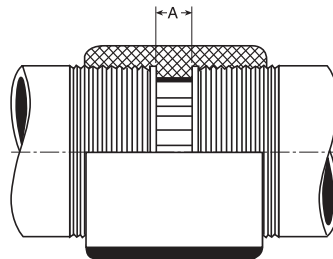

### Material:

Canvas base phenolic (black).
