Descriptions

Description	POWER/ RELAY PACK
extra long description	LITH MP20 Mini Power Pack
Long Description	The MP20 mini power pack works with low voltage occupancy sensors to switch lighting loads on and off
Product Type	Power Pack
Special Features	Mini Power Packs are the heart of the Low Voltage Sensor System. The MP-20 transforms 120, 240 or 277 Volts to class II 15 VDC to power the remote sensors. Although Plenum Rated, the elongated mounting nipple allows for the MP-20 to be mounted either directly thru a 1/2" knockout in a junction box, or to be located inside an adjacent box for specific local code requirements.
