

Stock #: RB-10075-SS

Product Description:

1" to 3/4" reducing bushings are used with threaded rigid or IMC conduits to reduce the size of female hubs in order to accommodate smaller sized conduits or male threaded hubs. Garvin Industries' stainlesssteel construction maintains mechanical protection and solid grounding of the conduit to the designated electrical junction box or enclosure. These reducing bushings are stainless steel for excellent corrosion protection in wet or damp locations.
