Descriptions

Description	18-8AWG CU CRIMP SLEEVE
extra long description	NSI SB1808 18-8 Awg Copper Crimp SI
Features	Connecting wires is faster and easier than ever with the professional performance features of Easy-Twist wire connectors from NSI. The copper crimp sleeve wire connector provides a quick, economic and vibration-resistant way to form permanent connections in most applications. Simply twist your wires to form a connection, then slide the sleeve—sometimes called a ground cap—down to the twist and crunch it tight with adjustable pliers or a specialized crimping tool. We designed these copper crimp sleeves
Long Description	The Easy-Twist SB1808 50-Count Pack of Copper Crimp Sleeve Wire Connectors are designed for use on wires in the 18-8 AWG size range. The simple sleeve design forms low-resistance connections in a tight space and installs using a specialized crimp tool or adjustable pliers.
