Descriptions	
Description	1" CORD GRIPS
Features	For use with metal-clad cable, TECK corrugated cable or
	interlocked steel or aluminum cable, Crouse-Hinds series TMC
	cable glands provide a means for terminating at junction boxes,
	control centers, panelboards and enclosures for motor control
	and electrical distribution equipment. TMC cable glands form a
	mechanical watertight connection and may installed in Class I,
	Division 2 locations provided there are no arcing and sparking
	risks in accordance with NEC501.10B.
