

COOPER LIGHTING - METALUX®

DESCRIPTION

The Metalux Electronic Undercabinet Series provides an efficient task lighting solution for any decor. Available in either the Ultra Slim profile with T5 lamp technology or Slim profile with T8 lamps. The electronic undercabinet series is not only high quality but an excellent value with post-painted housings, 100% acrylic non-yellowing lenses, and color corrected lamps. Available in various lengths, the undercabinet fixture conforms to various applications such as kitchens, offices, study areas, displays, computer stations and any other application where an inconspicuous light source is required.

SPECIFICATION FEATURES

Construction

Thin profile housing constructed of heavy gauge cold rolled steel. Housing features rounded corners and no exposed fasteners. Keyhole mounting slots are located on top of housing for ease of installation.

Electrical*

Energy-Star qualified 120v Electronic instant-start ballast for quiet operation. All units ship with 3000k lamps standard. All fixtures shipped direct wired. Rocker switch (included) can be field installed. UL listed for damp locations.

Finish

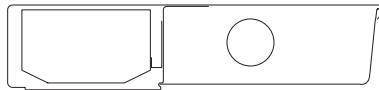

Standard with white finish applied after fabrication.

Shielding

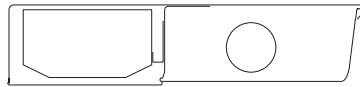

Non-yellowing acrylic diffuser snaps into housing for easy relamping and maintenance.
